

2007 Hi-Lo Tow-Lite Camper/Trailer - 50th Anniversary Model

My wife and I have decided to sell our 2007 Hi-Lo Tow-Lite Trailer model 1907T (50th Anniversary Model). We have kept it in mint and perfect condition! It has been garage kept since purchased (except for a few trips) and is in the same condition as the day we purchased it. This trailer has very few miles on it, and the tire tread is near new (also tires are nitrogen filled to keep cooler in road travel). You would need to supply your own towels, bed linens, food and the rest is in the camper. We have attempted to list everything that is in the trailer, yet there is more than we can put in writing. We purchased this Hi-Lo trailer new in 2007 because of the ease of towing (light weight) which gave our SUV great gas mileage (only about 2 mpg less per gallon) because of being low profile and smooth sided. There has never been anyone who has smoked around this Hi-Lo, so there is still that "new camper smell". Easy to raise with an automatic hydraulic lift system (optional manual raise), holding tanks; 30 gallon fresh water, 32 gallon gray water, 18 gallon black waste water, 3 way refrigerator operates on AC/DC/L.P. Gas, 2 skylight roof vents with fans, smoke & LP gas detectors, rear window, all windows have Day/Night Pleated shades and custom valances, 3 optional side storage pods, cable TV and phone jack, overhead bunk bed, LP Gas 3 burner range with oven, 15 inch radial tires and spare tire with optional continental chrome wheel carrier, 13,500 btu air conditioner with heat strip, retractable double step entry non-slip, 12' Sun-chaser retractable patio awning, TV antenna with booster, 6 gallon water heater with direct spark ignition (DSI), power hitch w/light and Reese® Weight Distribution System Trunnion & Shank System (WDS), custom fitted fiberglass LP tank cover, monitor panel for all holding tanks & battery power balance, durable vinyl floor covering, vented central ducted 16,000 BTU furnace, AC/DC power convertor, Life Time Warranty on Lift System and much more listed in the detailed items within the following pages.

There is much more, so please look at the photos! Note that the images are not in any particular order, but are to provide an idea of the camper and options included.

If you are seriously interested, please let me know as I have several additional photos that are available to view online.
